CYLINDER GASES INC.

DRY ICE

PROVIDING FRESH, LOCALLY PRODUCED DRY ICE

What is Dry Ice?

Dry ice is the common name for solid carbon dioxide (CO₂). It gets this name because it does not melt like wet ice (H₂O). Instead, it converts (sublimates) directly from a solid to a gas.

Expect more from your dry ice supplier!

Fresh. Local. Fast. We produce and deliver Dry Ice 5 days a week. Purity prides itself on quality product, on-time deliveries and comprehensive service. We are a local, family-owned company that provides the support, advice and knowledge you need to succeed!

How does dry-ice compare to wet ice?

LOW
Temp
(-109.3°)

Longer
