**\$147<sup>95</sup>**

# MAGNETS FOR AUTOMATION

## INDUSTRIAL MAGNETICS, INC.

*Making Things Better®*

### AUTOMATION GROUP

#### Applications:

- Material handling
- Conveying ferrous metal parts
- Stacking/destacking parts or materials
- Lifting
- Automated press to press transfer systems
- Robotic "pick & place"
- Manual and automated machine loading/unloading

#### Benefits:

- Outlasts vacuum cups in most applications
- Grasps odd shaped or perforated parts
- Increases production and reduces shop air costs
- Designed for long, maintenance free operation
- Operates effectively in any orientation
- Will not drop parts if system air-loss occurs
- Reduces noise

### Did you know?

Magnets can make your automated process

# METAL CORED WIRE

## IS IT THE RIGHT CHOICE?

- ✓ Do you weld through mill scale?
- ✓ Are you looking to produce more welds in less time?
- ✓ Would you like to maximize the quality of your welds?
- ✓ Do you spend time cleaning spatter deposits prior to paint?

If you answered **YES** to any of these, then Hobart's metal cored wire could be the answer you've been searching for!

Scan this to compare!

**FABCOR EDGE XP  
METAL CORE**

**Solid Wire**

**FABCOR 86R  
METAL CORE**

- High travel speed
- Consistent, flat weld surface
- Beautiful weld - ready for paint

- Slower travel speeds
- Smaller weld deposit
- Possible silicon entrapment

- High travel speed
- Silicon islands collect contaminants at the surface
- Nice tied-in edges

## Introducing: Clean Sanding Solutions

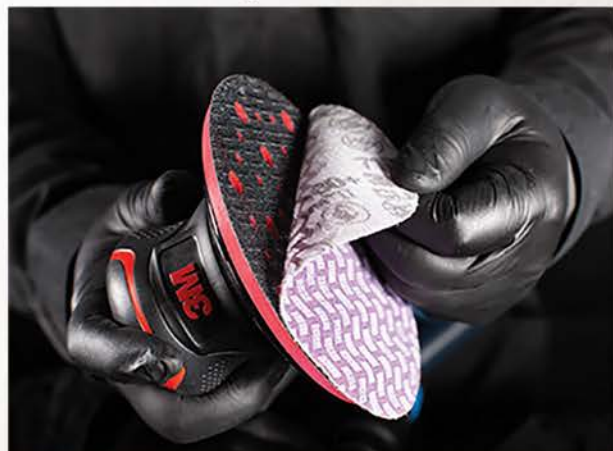

**Xtract™**

### 710W Premium Product CUBITRON II

The open-weave net structure means that every dust particle is near a dust extraction hole. As you sand, all dust is easily pulled through the surface of the net disc into the fitted back-up pad.

- No more lining up holes
- The best in dust extraction (up to 97%)
- Designed to require less pressure
- Less time spent cleaning
- Industry leading cut-rate

Other variations and sizes available.
