MRO SHOP GUIDE

JAN/FEB 2022

Introducing: **Hypertherm** **Powermax SYNC**

Powermax65 SYNC Standard Power Supply

Recommended Capacities:
Cutting: 3/4"-1" / 20 ipm
Severance: 1-1/4" / 10 ipm

Order# HYP 083343
\$3,525.00

Powermax85 SYNC Standard Power Supply

Recommended Capacities:
Cutting: 1"-1-1/4" / 20 ipm
Severance: 1-1/2" / 10 ipm
Pierce: 3/4" / 5 ipm

Order# HYP 087183
\$4,625.00

Powermax105 SYNC Standard Power Supply

Recommended Capacities:
Cutting: 1-1/4"-1-1/2" / 20 ipm
Severance: 1-1/2" / 10 ipm
Pierce: 7/8" / 5 ipm

Order# HYP 059625
\$6,050.00

Reduce consumables from 5 parts to 1 cartridge!

NEW Nitro Series™ Electric Dynisher

- Superior in-line finishes on metal
- Adjustable RPM's
- Variable speed dial
- Includes arbor for use with 3/4" bore accessories
- Locking trigger for extended use

DYB DYS1

ARCONE®

ArcOne® is now offering three kit options for the AirPlus® Powered Air Purifying Respirator (PAPR) System at a greatly discounted price.

AirPlus® with Vision® BFFVX Powered Air Purifying System Kit includes:

- Black Respiratory Vision® Auto-Darkening Welding Helmet with BFF® Lens, AirPlus® Battery, Battery Charger, Waist Belt, Flexible Breathing Tube with FR Cover, Airflow Indicator, Powered Respirator with HEPA filter & duffle bag.

BFFVX Lens Specifications:

- 17 Square Inch Viewing Area (largest in its category)
- Light State: 3, Dark State: 5-13
- Grind Mode
- 2 Optical Sensors, 1 Magnetic Sensor

AirPlus® with Vision® X81VX Powered Air Purifying System Kit includes:

- Black Respiratory Vision® Auto-Darkening Welding Helmet with X81VX Lens, AirPlus® Battery, Battery Charger, Waist Belt, Flexible Breathing Tube with FR Cover, Airflow Indicator, Powered Respirator with HEPA filter & duffle bag.

X81VX Lens Specifications:

- 12.6 Square Inch Viewing Area
- Light State: 3, Dark State: 5-14
- Grind Mode
- 4 Optical Sensors, 1 Magnetic Sensor
- Digital controls

AirShield® with AirPlus® Powered Air Purifying System Kit includes:

- Respiratory AirShield® Grinding Visor, AirPlus® Battery, Battery Charger, Waist Belt, Flexible Breathing Tube with FR Cover, Airflow Indicator, Powered Respirator with HEPA filter & duffle bag.

Steelmax HSS cutters utilize an M2A1 (aluminum additive) formulation which increases cutter life due to better heat propagation characteristics and its less brittle character compared to other M2 formulations, such as those using a cobalt additive. HSS cutters are most cost effective for mild steel applications and holes up to 2-3/8" in diameter in material up to 2" thick and can be resharpened to extend cutter life.

Advantages of annular cutters over twist drills:

- Eliminates costly, time consuming step-drilling
- Significantly less drilling time (3-4 x faster)
- Longer tool life
- More accurate & higher quality holes (burr free)
- Create overlapping holes
- Lower machine & horsepower requirements

E-WELD NOZZLE™

Reduce your downtime, save money & increase productivity

WALTER
Surface Technologies

E-WELD NOZZLE™

E-WELD NOZZLE is a ceramic anti-spatter that protects welding nozzles for an entire 8-hour shift. With 2-3 times the active ingredients of competitive products, E-WELD NOZZLE provides unrivaled protection of welding nozzles in manual, fully or semi-automated MIG welding applications.

Description	Order No.	Price
Aerosol, 13.5 fl oz	WTR 53F212	\$42.95
Starter Kit (Nozzle can + 1 Applicator)	WTR 53F912	\$47.95
Applicator only	WTR 53L121	\$9.95

E-WELD PLASMA™

Long lasting protection for dry and under water plasma cutting tables and laser cutting tables

E-WELD PLASMA™

Description	Size	Order No.	Price
Sprayer	- - -	WTR 53L126	\$229.95
Liquid	22 lbs	WTR 53F605	\$259.95
Aerosol	13.5 fl oz	WTR 53F602	\$17.95

E-WELD Plasma™ is a

ceramic anti-spatter solution that is applied to dry or wet cutting tables to reduce the buildup of slag over time. Use the air powered pump sprayer to quickly coat large surface areas.

- Prevents slag from adhering to slats
- Decreases routine cleaning time & effort
- Reduces downtime
