FRL—Filter/Regulator/Lubricator

Extend the service life of your air tools with an FRL. Filters out hidden debris/water, allows operators to regulate air pressure locally, and delivers air tool oil consistently.

Locally Owned and Operated Since 1938

Offer good through 06/30/2022. While supplies last - prices subject to change. Not all items stocked at every location.

**Quality
Power
Brushes**

The unique trim of a controlled flare end (CFE) brush is designed specifically to address hard-to-reach areas, reducing filament fatigue and breakage typically associated with a standard end brush when cleaning corners and fillet welds.

The CFE is performance-engineered to allow:

- reduced flaring
- precise filament control
- more wire points working with less effort
- increased durability in right angles, corners and fillet welds
- less wire breakage in demanding applications

Controlled Flare End Brushes

| Order No. | Description | Material | Price |
|-----------|---------------------------------|----------|----------------|
| WEI 10302 | 1/2" controlled flare end (CFE) | steel | \$9.95 |
| WEI 10306 | 3/4" controlled flare end (CFE) | steel | \$12.95 |
| WEI 10310 | 1" controlled flare end (CFE) | steel | \$14.95 |

Knot Cups & Stringer Beads

LONE STAR

CUTTING SOLUTIONS

Trooper

The perfect introduction into the world of CNC plasma cutting.

Sizes:
4x4, 4x8, 4x10,
5x5, 5x10, 5x12,
6x10, 6x12, 6x18

2 year warranty
Lifetime telephone technical support

Take your small shop to the next level with production capabilities.

Main Features:

Automatic lead screw torch height control
Dual rack and pinion servo motor drive (X,Y)
Linear precision guide rails
3'x3" extruded aluminum bridge

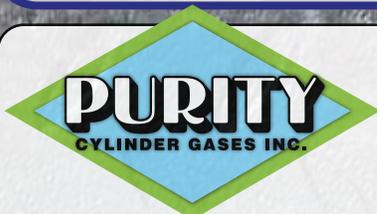

Machine Specifications:

Positioning Accuracy: (+/-) .007
Repeatability: (+/-) .002
Max. traverse speed: 1000ipm
Max. tools: 2 (plasma, oxy-fuel, scribe, or manual bevel head)
Max. plasma system amperage: 125amps
