WELDING SIMULATORS

**Available for
Purchase
OR Rent!**

**Call for
other
options!**

Tech Schools: Bridging the gap from classroom to welding lab, resulting in a shorter learning curve for new welding operators.

Employee Development: In the welding industry, augmented reality helps companies screen and train operators faster.

Special Order Only

Lincoln Electric VRTEX® Transport™

**LINCOLN
ELECTRIC**
THE WELDING EXPERTS®

- Realistic puddle & actual welding sound helps welders learn to respond and adjust accordingly
- Tracks & scores key weld parameters including work angle, travel angle, travel speed, distance & position

LIN K4603-1

\$27,750⁷²

Miller Electric AugmentedArc®

- Simulates multiple welding processes, blending real-world and computer-generated images
- MIG, Flux-Cored, Stick & TIG welding on T-, bead on plate, butt, lap, pipe-to-plate butt pipe, v-groove with backing and v-groove w/o backing joints
- Integrated with exercises for NCCER Welding Levels 1-2 and the ability to create your very own exercises

MIL 951823

\$30,851³⁵

TUNGSTEN GRINDERS

TechSouth tungsten grinders are consistent and precise, which is extremely important when it comes to TIG welding! The adjustable head grinder allows you to set various angles on the tip of the tungsten for the more difficult TIG welding projects (especially on thin materials).

Cordless Models

- Powered by a powerful 12-volt Milwaukee motor
- Delivers 5,000 - 32,000 RPM for superior speed & performance
- Up to 10x the tool life with grinder-style exhaust ports & front bearing protection
- Variable speed dial offers fluid control
- Compact, lightweight design allows you to work comfortably in tight spaces

INNOVATIVE FACE PROTECTION

JACKSON
SAFETY Brand

REBEL ADF Digital Welding Goggle Mask (Kit)

- Ultra low-profile design
- Digital ADF adjustments & true color technology
- Light-weight design to reduce neck strain
- Extremely versatile and fits under hard hats
- Compatible with prescription glasses
- Ideal for short bursts of welding in confined spaces
- One-piece design protects against UV and IR leakage
- Exclusive wrap-around face shield for added protection

SWX 46200

QUAD 500™ Series

- Multi-purpose face shield offers unparalleled range of protection
- Designed for grinding, cutting, oxy/acetylene cutting, plasma cutting, brazing, etc.

- Premium 370 headgear
- Available with optional flip-up extra-large IR window (order no. SWX 14230 & SWX 14233)

SWX 14230

SWX 14233

SWX 14220

GPL Series Premium Goggle & Detachable Face Shield

- Comes with removable, flip-up face shield
- 99.9% UV protection
- Soft goggle for high comfort
- Anti-fog coating
- Available in clear, shade 3 or shade 5
- Indirect vents protect against chemical splash
- Shade 3 & 5 goggles ideal for oxy/acetylene cutting, brazing, and plasma cutting operations

REGULATOR TRADE-UP EVENT

CASH in your old, broken or failing regulators and get up to \$25.00 off for each new regulator purchased!

**G250
SERIES**

Regulators are continuously exposed to high stresses due to cylinder pressures. Corrosive gases on the inside combined with external corrosive environments cause gauges and springs to rust and fittings to discolor. If you suspect a leak or a climbing delivery pressure, get your equipment checked.

What is so great about the EDGE?

**EDGE™
SERIES 2.0**

- Impact absorbing knobs prevent a tragedy in case of a cylinder fall
- Internal particle trap virtually eliminates potential for oxygen regulator burn-outs
- Larger delivery pressure gauge for ease of use along with color-coded pressure ranges
- Stainless steel diaphragm exceeds UL testing requirements for durability

SERIES	GAS	PRESSURE	MODEL	Part No.	Reg. Price	w/Trade-In
