THE RISE OF THE COBOTS...

Does welding automation really make sense for your production? **The answer may surprise you..**

"Cobots are starting to become a significant presence in a lot of places we haven't typically seen automation."

Cam Kuperus, Technical Sales
Lincoln Electric

"In order to continue to be competitive and offer new opportunities to our employees, automation is the next step."

Nick Beaudoin, Operations Manager
Flash Fab

"The learning curve on the cobot was far and away the shortest learning curve."

Joe Beaudoin, Lead Fabricator
Flash Fab

"It's not here to replace you, it's just another tool for you to use."

Keenon Goosen, Dir. of Operations
Metal Plus

"It did everything and more than we expected to the point where we bought a second one immediately."

AJ Lasley, Facilities Manager
Metal Plus

Recent innovations in cobot technology have made welding automation a more practical solution for almost every job shop.

COBOTS are:

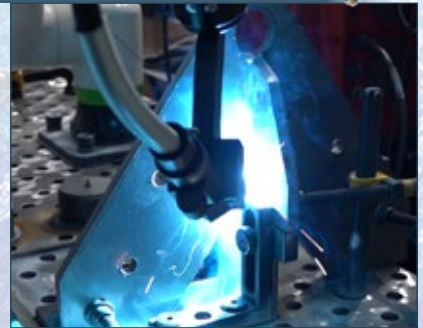

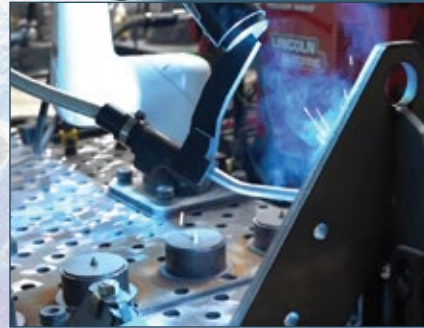

- | Easy to Use | Easy to Program | Portable & Mobile
- | Highly Configurable | Quick to Deploy

See what **real customers** are saying about their recent cobot purchase:

Benefits of Welding Automation:

- | Better Weld Quality | Improved Safety
- | Consistent Welds | Increased Efficiency
- | Faster Welding | Cost-effectiveness
- | Lower Labor Requirements

Learn more with our In-house Automation Specialist!

Want to increase production and improve part quality?

Let's discuss the possibilities of welding automation for your shop! Purity is a complete automation provider. We represent the best products in the industry and work jointly with supply partners to configure unique, high performance automated welding and cutting solutions.
