# THE RISE OF THE COBOTS...

Does welding automation really make sense? The answer may surprise you..

Recent innovations in cobot technology have made welding automation a more practical solution for almost every job shop.

COBOTS are: Easy to Use, Easy to Program, Portable & Mobile, Highly Configurable, and Quick to Deploy

See what **real customers** are saying about their recent cobot purchase:

Click to view video

## Benefits of Welding Automation:

- | Better Weld Quality | Improved Safety
- | Consistent Welds | Increased Efficiency
- | Faster Welding | Cost-effectiveness
- | Lower Labor Requirements

"In order to continue to be competitive and offer new opportunities to our employees, automation is the next step."

Nick Beaudoin, Operations Manager  
Flash Fab

"The learning curve on the cobot was far and away the shortest learning curve."

Joe Beaudoin, Lead Fabricator  
Flash Fab

"It did everything and more than we expected to the point where we bought a second one immediately."

AJ Lasley, Facilities Manager  
Metal Plus

## The Miller® OptX™ 2kW Handheld Laser Welder

It's time to change the welding game

Miller's commitment to providing safe and reliable welding innovations led to the partnership with IPG Photonics, the world leader in fiber lasers.

The result: The **Miller OptX 2kW** handheld laser welder, a solution that will benefit users like never before.
